OBJECTIVE

Motivated and detail-oriented Computer Science student with a strong foundation in programming and web technologies. Seeking opportunities to apply and expand my skills in software development, data management, and front-end design while contributing to innovative projects.

EDUCATION

2023 – Present	**B.Sc. Computer Science**, St. Joseph's College, Trichy CGPA: 6.5 (till 4th Semester)
2023	**12th Standard – Computer Science**, Sowdambikaa Hr. Sec. School, Thottiyam Percentage: 80%

INTERNSHIP

Speculation Info Tech, Trichy – Full Stack Development Intern   May 2025 – June 2025

Successfully completed internship from 02nd May 2025 to 05th June 2025. Key contributions include:

- Gained hands-on experience in Full Stack Development activities, including front-end and back-end tasks.

- Developed and debugged modules using HTML, CSS, JavaScript, and SQL.

- Demonstrated strong dedication, curiosity, and the ability to complete assigned tasks effectively.

- Collaborated with team members, contributing positively to the achievement of organizational goals.

- Enhanced problem-solving and teamwork skills by actively engaging in project discussions and solutions.

PROJECTS

E-commerce Website (Front-End)

Developed a responsive front-end for an online shopping platform using HTML, CSS, and JavaScript featuring product listings, shopping cart UI and checkout pages.

Restaurant Website (Front-End)

Created an attractive restaurant website with menu display, reservation form and contact page using HTML, CSS, and JavaScript to enhance user experience.

Filmmakers Website (Front-End)

Designed and built a website for showcasing filmmakers' profiles and their works, using HTML, CSS, and JavaScript with a clean responsive layout.
